Selection of products

1

The products in this manual are industrial products and are all open-type housing designs. It is essential to install these products within a control cabinet that is safeguarded against dust, moisture, and accidents such as electric shocks or physical impacts. Additionally, protective measures must be taken to prevent malfunctions or damage caused by improper operation or accidents involving non-maintenance personnel. Failure to do so may lead to serious risks to personnel safety and potential loss of property.

M

Please refer to the M series hardware manual for more detailed information.

Item	Specifications
Altitude	≤2000m
Operating environment	Installation within a control cabinet, open-type and indoor use
Operating temperature	0~55
Storage temperature	-25~70
Ambient humidity	10~95%RH (non-condensing)
Vibration resistance	5~150Hz X/Y/Z 1g/3.5mm
Pollution degree	Level 2
Cooling method	Natural air cooling
IP rating	IP20
Enclosure material	Self-healing material
	CN
